Owned and manufactured by Regent Paints

Colours shown are as close as possible to actual colours. Due to limitations in the printing process, the surface texture and difference in light sources - these colours are a guide only.

Made for the Trade. Built to Last.

Since 1993, Regent Paints has been manufacturing high performance roof coatings built for the country's harsh conditions. Australian owned and developed by industry experts, Regent Paints products are trusted by roofing professionals who need coatings that perform consistently, apply easily and stand the test of time.

From primers to sealers through to premium topcoats, the Regent Paints system is designed to simplify the roof restoration while delivering long-lasting protection and great-looking results. With quality formulations, reliable service and colours ready to go - Regent Paints helps customers get the job done faster and with confidence.

The Regent Range:

Ridgebond Flexible Pointing - Regent Paints' own premium flexible pointing compound designed for strong ridge cap adhesion, easy application and long-lasting weather resistance.

Tileguard Primer - A penetrating, tinted acrylic primer that creates unbeatable adhesion to cement roof tiles for excellent topcoat adhesion.

Tileguard Maxi Prime - Advanced nano-technology primer that deeply penetrates oxidised tiles to lock down surfaces and maximise coating performance.

Tileguard Sealer - 100% acrylic sealer designed to smooth and seal porous tiles, improving topcoat coverage and delivering a consistent coating.

Tileguard High Build Sealer - A high-solids sealer designed to seal and level aged and pitted cement roof tiles before top coating.

Tileguard Terracotta Primer - Designed specifically for glazed terracotta tiles and other non-porous substrates.

MetalLock Prime - An anti-corrosive metal primer designed to prevent rust and adhere to all metal substrates.

Tileguard Roof Membrane - A high gloss, 100% acrylic roof coating that restores colour and protects roofs from Australia's tough weather conditions.

Regent Ultra Membrane - A premium acrylic roof coating with increased gloss and colour retention - designed to last longer and reduce dirt pick-up.

Tileguard Heatguard - Heat-reflective pigments combined with a premium acrylic roof coating that helps to reduce the surface temperature on roofs.
